

THE WEDDING RING
— STUDIO —

The Wedding Ring Studio Environment and workshop safety

As a couple you are embarking on a journey together, we wish to make your journey a memorable one by giving you the opportunity to hand make your own wedding bands. I will be at hand at all times to ensure that your wedding bands are perfect in every way, you only need to read what our past couples have to say!

Introduction to the equipment

Your safety is paramount to us. You will be given an introduction to various tools and pieces of machinery and how to use them. You will be shown different chemicals you will be using throughout the day and the safety procedures that are necessary to follow while working with them. Remember to respect the equipment you work with and work carefully and safely using all protective equipment.

First aid

First Aid is available in the workshop and the first aid point will be pointed out to you in case of an emergency.

Choosing Your Rings

Your Rings

Please make arrangements to call into the workshop before you book, so we can discuss the design, shape, width, thickness and style of your ring. In some cases we need to fit your band around your engagement ring, this shouldn't be a problem. We will also take your ring size and all other necessary measurements. We will also need to discuss the metal you wish to use. Metals available are silver, palladium, 9ct. 18ct. 22ct. (white, yellow, rose) gold or platinum.

Fire Safety

In case of a fire, a safety drill will be shown to you. This includes the safest route to exit and the assembly point outside. You will be made aware of the various types of fire extinguishers available and their location within the workshop.

Do I need to bring anything?

We supply all the safety gear you will need on the day, including aprons, protective eye wear, and disposable masks. If you have long hair please tie it back while you work. We would also ask you to remove any loose items of clothing before polishing, such as scarves or long necklaces. If you have long sleeves you will need to roll them up. Footwear should be comfortable, preferably not high heels or trainers.

Extra features

Extra features may be added to your ring such as diamonds, semi-precious gemstones or engraving.

Quote or costings for your ring

Once we know what metals you want to use, and your measurements, we can work out the cost of your rings. We will work, as best as we can, to get you a price that fits your budget.

Booking

Booking the Wedding Ring Studio could not be easier, simply call us on 079 7583 9454 and check for availability.

We are open Tuesday–Saturday, and have morning and afternoon workshops for the Wedding Ring Studio.

Morning session approximately from 10:30–3:00
Evening session approximately from 3:30–8:00

Please state which suits you best when booking.

Finally your workshop day includes a celebratory meal out at a Belfast restaurant. This usually includes a starter, main meal and a glass of wine.

Participating restaurants include, The Mourne Seafood Bar, Ginger, Nicks Warehouse, Two Taps and Nu Delhi Indian. If you have a particular restaurant you would like to go to as an alternative we will try to accommodate you.

We advise making your rings at least one month in advance of your actual planned deadline date or wedding day. This will allow for the hallmarking of your rings and the setting of any gemstones you may wish to put into your rings. We can be flexible in special circumstances. (Call for advice).

Payment

Your payment of the workshop fee will secure your booking, please note that complete payment for your wedding bands and studio should also be paid one month before your workshop date to allow us to order your metal and make any prior arrangements before your day.

Have a wonderful time!

Above all we hope you really enjoy yourselves as you make your own wedding rings. It is a really magical experience and I think you will be amazed at the hidden talent and potential locked away inside of you. We guarantee that your rings will be beautiful and finished to the highest standard before you leave.

If you have any further questions please feel free to contact The Wedding Ring Studio on 0797 583 9454 and we will assist you with any questions you may have.
